The **Introduction to TESOL** Certificate is an award of THE TESOL COLLEGE and is available globally from the UK as a distance learning course.

Introduction and Course Aim

This qualification is designed to give the holder a taste of the field of TESOL to the extent of being able to decide if they wish to take things further and enter the world of teaching English to speakers of other languages. The holder will also be able to knowledgeably survey job opportunities in TESOL and will be able to perform at an interview for a teaching post. However, a further and more comprehensive teaching qualification would be advisable to allow full competency in teaching English to speakers of other languages.

This Introduction to TESOL is useful for those considering entering the field, also for those already teaching English to native speakers but who are unfamiliar with the needs and challenges for teaching to speakers of other languages.

The course content ranges across TESOL with a global perspective, providing participants with confidence to consider their first TESOL teaching in a range of countries and environments.

The course is presented in seven units:
